## KEY FEATURES OF UNIFI TALK

### Smart, Reliable, and Feature-Rich VoIP

- ✔ Voicemail-to-Email: Never miss an important message - get voicemail transcriptions sent to your inbox.
- ✔ Text Messaging: Send and receive business texts directly through the system.
- ✔ Softphone Support: Make and receive calls from any device via the UniFi Identity app.
- ✔ Intercom & Paging: Easily communicate across office locations.
- ✔ Call Forwarding & Routing: Redirect calls seamlessly to ensure uninterrupted communication.
- ✔ Conference Calling & Video Calls: Enhance collaboration with built-in conferencing features.
- ✔ Call Failover: Keep your business running, even if your network goes down.
- ✔ Automated Call Management: Advanced call routing, queues, and IVR (Interactive Voice Response).
- ✔ Call Recording and Transcriptions: Record and transcribe inbound and outbound calls.
- ✔ Seamless Integration: Connect with your existing UniFi network and other business applications.
